TikTok Compliance & Industry Relations

Compliance with Alcohol Marketing Codes

01

Platform LDA Compliance for placement (at least 73.8% audience = 21+)

According to self-reported data, the TikTok platform meets the LDA requirement.

02

Age-Gating of Content

Paid: Advertisers must target users 25+. TikTok targeting meets both conditions:

1. Self-declared age 25+
2. Internal models infer age is 25+

More on TikTok's Age Assurance [here](#)

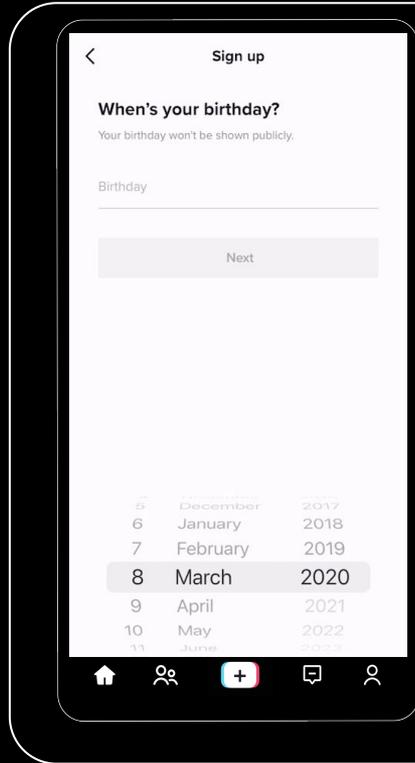

Organic: Content must be age-gated to 21+ through the RBA process.

03

Post-campaign 21+ audience measurement

Third-party, campaign-level age verification measurement through **Nielsen ONE**. TikTok can provide a readout of the "on-target %" KPI from Nielsen to indicate the number of impressions served to the intended LDA audience.

TikTok **Compliance** for LDA Targeting

Age Targeting for Paid Ads

When users first sign up for a TikTok account, they enter their birthdate.

In addition to self-declared age, we also infer attributes (such as age-range) based on information we have about our users - like engagement with content on the platform.

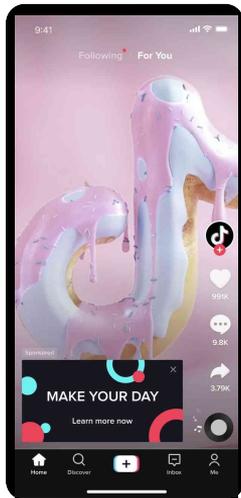

We use inferences to keep the Platform safe, for content moderation and to serve ads.

Rule of Thumb

Commercial content (Organic & Paid) is allowed for alcohol and other sensitive industries, as long as it is **age-gated**, **geo-fenced**, and **in compliance with TikTok policies**.

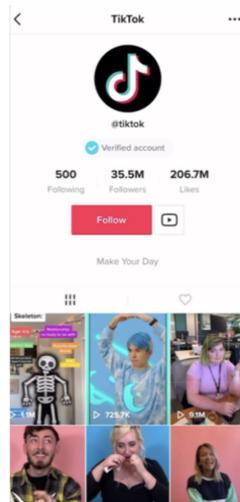

There are three main types of commercial content

Paid Ads

TikTok NA Ads Policy requires 25+ targeting for all ads promoting or featuring alcohol

Brand Organic

Evergreen content that a brand may post from their handle. All handles for alcohol must be a age-gated & geo-fenced as an RBA.

Branded Content

Content promoted by a 3P (Creator, Influencer, Ambassador, etc) on behalf of an alcohol brand. Must be age-gated & geo-fenced.

Organic
